JONESBURG, Mo., Aug. 21.—Freight train No. 97, west-bound, on the Wa-bash railway, struck a horse at a road crossing 2 miles from here about 11 o'clock Sunday night, ditching the engine and eighteen cars, killing three people, fatally injuring two others and

The dead are: Engineer C. Felton, of Moberly: Charles Fiddler, of St. Joseph; Charles Miller, of St. Louis.

Engineer Felton, who was one of the oldest employes on the road, was crushed beyond recognition; he never knew what hurt him. Miller was caught between the timbers, and when discovered was standing on his head. He was probably killed instantly, and was so black from the rush of blood to his head that he was unrecognizable. Fiddler was killed by the roof of the car crushing in upon him while asleep.

The injured are: Fireman Tilton, seriously, will probably die; Brakeman Charles Fairbanks, left arm broken; George Williams, of Fort Worth, hail-ing from Kansas City, two severe cuts in the forehead, left ankle severely bruised; William Pittman, of St. Louis cut in head, side bruised; William Myers, home unknown, face scratched mas, Fulton, Kan., head cut; T. Moore, home unknown, bruised con-siderably; Henry Euper, Denver, Col., badly bruised; D. B. Debing, Norway, Mich., badly bruised; Charles Fulton Hennessy, Germany, bricklayer by trade, hurt in the side. The bottom of a car had to be chopped off to re-lease him. He and George Williams were wedged in together, and their escape was miraculous; William Smith, home unknown, severely injured, but will recover; J. A. Thomason, Golden, Col., head cut and bruised up generally; J. E. Tedds, St. Joseph, Mo., not known how badly he is injured; a young foreigner, four years in this country, name unknown, back badly

The scene at the wreck was heart rending. The train contained three ears of tile drain pipe and a car of tele-graph poles. In the former cars twelve tramps, presumably members of Coxey's army, had secreted themselves to beat their way to Kansas City, and when the wreck occurred they were caught and crushed as narrated above.

Amid the great heap of kindling wood groans and appeals for help could be heard. It was a half hour before relief reached the wreck. A man was sent here and the citizens turned out en masse and did all in their power to relieve the suffering. The depot was turned into a hospital and the physicians of the town administered to the wounded. All those who were severely injured were taken to the Wabash hospital at Moberly yesterday afternoon. Old railroad men and all who have seen the wreck say it is the most complete they ever witnessed.

The damage to the railway will amount to perhaps \$25,000. A suit may grow out of this wreck under the herd laws of Missouri against the farmer who permitted his stock to run at large.

Some of the Work Accomplished by the Present Congress.

WASHINOTON, Aug. 20.—Representa-tive Dockery, of Missouri, was asked Saturday to summarize the work of the session in the house. Nobody is more familiar with the work. Mr.

more inmiliar with the Dockery said:

I will begin with a summary of the appropriations of the present session and also give a statement of some of the most important legislation emeted. The secretary of the treasury estimates that under the new tariff bill the continuous of the government, including postestimates that under the new tariff bill the total income of the government, including post- all receipts for the present fiscal year, will be \$402.427.748. The appropriations of the present seasion, including the sinking fund requirements, amount to \$400.608,309.51. Deducting from this total of appropriations the \$40.00.001 required by the sinking fund, which will not be met, as it has not been for several years, it appears that the liabilities of the government for the faceal year of 1806 will be \$442.609.308.51, thus leaving an estimated surplus in the treasury of \$807.70.328.48.

leaving an estimated surplus in the treasury of \$19,709.30-40.

The items of estimated income under the new tariff bill ane as follows: From duties on imports, \$4,000,000; on sugar. \$170,000,000; whisky, \$00,000,000; tobacco, \$33,000,000; fermented liquors, \$33,000,000; income tax. \$15,000,000; tax on elecmargarine, \$1,000,000; playing cards, \$1,000,000; sale of public lands and other miscellaneous revenues, \$20,000,000, and postal

enue, \$200,000; sale of public lands and other miscellaneous recenues, \$30,000,000, and postal receipts, \$81,477,788.

The Fifty-third congress also enacted legislation which has received the approval of the president declaring that pensions granted under any law of the United States shall be deemed and held by all officers of the United States to be a vested right, to the extent that payments shall not be withheld or suspended until after notice of not less than thirty days and a proper hearing.

It has enacted a law which authorizes postmasters to administer onths in matters relatively.

It has enacted a law which authorizes post-masters to administer oaths in matters relat-ing to pensions; also several measures re-ported by the joint commission to investigate executive departments, which, it is estimated, will reduce expanditures \$60,000. Among the more important of these are: The law requir-ing enrolled bills to be printed in clear type before being presented to the president for ap-proval, thus avoiding costly errors; the law re-vising the money order system; providing a uniform method of advertising for supplies for the government service at Washington: the uniform method of advertising for supplies to the government service at Weakington: the law abolishing the requirement for the andit-ing of the "property return" and making cer-tain useless reports; and the law reorganizin, the accounting system of the treasury depart-ment. All these measures expedite the settle-ment of public business by dispensing with cumbrous business methods.

WRECKED AT SEA

A Russian Vessel Goes Down in a Storm-Sr. Petersnurg, Aug. 20.—A dispatch from Rybinsta, an important commercial center, situated on the right bank of the Volga river, states that a terri-ble storm passed over that city and the neighborhood on Friday last. The damage done to property was immense. The steamer Uspiekh, plying on the river Shexna and the Volga, was caught by the storm on the former stream. There were 100 passengers on the vesthey were by the tremendous force of the wind, the furious downpour of rain and almost impenetrable darkness.

The captain, knowing that his vessel was in great danger, headed her for the beach, his intention being to run her ashore. Before this could be done, however, the vessel sprung a leak and began to founder. As she foundered her deeks were blown up by the air in hold. Everybody on was thrown into the water, there not having been time to lower the boats. Despite the fury of the storm passing vessels which had heard the signals of distress stopped and managed to rescue everybody except the captain and five other persons. Nothing was seen of these six after the steamer foundered, and it is supposed they were drowned.

Gas was struck at ealed upon the occasion of the ca-a depth of 350 feet on the farm of Rob-gagement between the Chinese and Japanese troops at Yashan when the for-mer were defeated. A number of Co-rean soldiers, by special order of the king of Corea, accompanied the Japanese troops. Some of the Coreans fled when the fighting began, but the majority fought with the greatest bravery. According to the Scoul dispatch, this fact has high political significence as showing that the king of Corea sides with Japan.

Five Men Drowned.

TACOMA, W28h., Aug. 20.—A special from Ocosta, says: On Saturday morn-ing while making a landing at Jo creek, 15 miles north of Grav's harbor, a whaleboat and a crew of nine men, in command of Lieut. Freeman H. Crosby, U. S. N., of the United States coast survey steamer McArthur, was capsized and five men are missing, namely Lieut. THE BASHFUL YOUTH'S WOES.

Men Sneer at Him. Women Look on Him Without Pity, and Giris Giggle at Him. He deserves pity, but he is univer-sally laughed at. He is painfully conscious of existence

wherever he goes, and it would doubt-less be a mercy to him if he could cease existing, now and then, long enough to recover his composure. His feet and hands are always won-

derfully in the way, and a large portion of his time is passed in the melancholy task of measuring his two thumbs, as if he were not altogether certain whether they were mates or not.

He contemplates the toes of his boots for hours together, with a face as grave and sage as if these same toes were the "vague, mysterious future," of which we hear so much, and he was

seeking to penetrate its secrets. He cannot walk across the roout turning up the corners of all the rugs in his pathway, and if he does not tip over the ottomans, and sweep the ornaments off the center table with his coattails, he may esteem himself fortu-

He instinctively feels his collar to see if it is all right, and fingers his coat-tails to make sure there is nothing adhering to them, and he feels savage, and wishes the women had all perished in the deluge. Well there are so few bashful young

men now-a-days that people should not laugh at them, for bashfulness is one of the ancient virtues, which in this age of "cheek" and "brass" is fast becoming obsolete.-Kate Thorne, in N.
